WHAT WILL BE YOUR LEGACY?

January 26, 2017

Dear Members of the Horse Racing Commission,

This 9-minute video was created as testimony to the PA Gaming Control Board regarding the second of two Gettysburg casino proposals. It is just as relevant to the current proposal for "Mason Dixon Downs." We hope you will view it, and appreciate its message.

Twice before, in 2005 and 2009, an aggressive campaign was undertaken to bring gaming to Gettysburg, and twice it was rejected unanimously by the PA Gaming Control Board. The members recognized, after witnessing the growth of a local group into a nationwide coalition, that the overwhelming opposition expressed from across the country and even overseas was compelling. It was obvious that most people felt that locating a casino in or near Gettysburg would be an unforgiveable transgression.

This professional video was produced entirely by volunteers out of their love for Gettysburg. In past battles against a Gettysburg area casino, Pennsylvania's government and her honorable racing and gaming establishment were called into question for even considering such a proposal. After viewing Ken Burns, David McCullough, Susan Eisenhower and others in this film, I hope you can find a way to bar these sacred grounds from any consideration as a gaming location.

Sincerely,

No Casino Gettysburg
